

Cinci360

Cinci360 delivers advanced **3D reality capture, digital twins, and architectural documentation** for AEC firms, government agencies, insurance carriers, and facility managers nationwide. With 20 years of IT systems & engineering experience, Cinci360 blends technical precision with enterprise-level digital fluency—supporting design, construction, inspection, and modernization projects across the United States. We specialize in transforming physical environments into accurate, high-value digital assets that accelerate decision-making, reduce field time, and improve cross-disciplinary coordination.

Designations

DUNS: 116670255
Cage Code: Fall 2019
NAICS: 541340, 541511, 541922
UNSPSC: 43232614, 81151601
WBENC: WBE1802343
WOSB: WOSB191009
PSC Code: T008, T009, C212
Google Agency ID# 5267881836

CORE CAPABILITIES

3D REALITY CAPTURE

- LiDAR, photogrammetry, and hybrid capture workflows
- Interior + exterior as-builts for all building types
- Construction progress validation
- Scan-to-plan and scan-to-BIM deliverables
- Rapid-response site capture for insurance, compliance, and safety

DIGITAL TWINS

- High-accuracy digital replicas for facility management
- Digital twin hosting, optimization, and secure access portals
- IoT-ready environments for future smart-building integrations
- Multi-property digital asset libraries for ongoing operations

ARCHITECTURE DOCUMENTATION

- As-built CAD drawings & construction documentation
- Conflict detection and field verification
- Renovation and pre-design measurement packages
- Cross-team collaboration with architects, engineers, and GCs
- 3D walkthroughs for design visualization and client presentations

SUPPORTING SERVICES

- Web portals for digital asset access (AEC, insurance, FM teams)
- Cloud-based archival systems
- SEO-optimized digital deliverables for marketing, leasing, and sales
- Digital twin training for internal teams

PAST PROJECTS

AEC + DESIGN FIRMS

- ChangeUp Architecture – As-built documentation across multiple building types
- BHDP Architecture – Construction documentation for major corporate projects
- Art Academy of Cincinnati – 3D gallery documentation for ongoing marketing

CONSTRUCTION + ENGINEERING

- VTS – Field-verified laser as-builts for national rollouts
- Kroger / 84.51° – Scan-to-documentation for commercial facilities

ADVANCED MANUFACTURING

- 80 Acres Farms – Facility website + 3D walkthrough of hydroponic systems
- Performance Plastics – Manufacturing facility documentation for modernization

E-COMMERCE / DIGITAL SUPPORT

- Excel / NatrixOne / MyKidzy – Ecommerce + digital product creation across Amazon, Walmart, Target & DTC platforms
- DWELL513 – Ongoing 3D walkthroughs for real estate marketing

MARKET DIFFERENTIATORS

- **20+ years** of technical systems experience
- **8 years specialized** in 3D reality capture & AEC technology
- Extensive field experience across architecture, construction, insurance, and manufacturing
- **Nationwide provider network** with rapid mobilization
- **Google Partner Agency** & Grow with Google Program Coordinator
- **Certified Women-Owned Business (WBE & WOSB)**
- Proven ability to integrate 3D data with client workflows, PM platforms, and cloud environments
- Deep understanding of **AEC digital transformation**, site logistics, and construction documentation standards
- Cross-functional experience supporting enterprise clients and government entities
